This is an

Production

Outhere is an independent musical production and publishing company whose discs are published under the catalogues Æon, Alpha, Fuga Libera, Outnote, Phi, Ramée, Ricercar and Zig-Zag Territoires. Each catalogue has its own well defined identity. Our discs and our digital products cover a repertoire ranging from ancient and classical to contemporary, jazz and world music. Our aim is to serve the music by a relentless pursuit of the highest artistic standards for each single production, not only for the recording, but also in the editorial work, texts and graphical presentation. We like to uncover new repertoire or to bring a strong personal touch to each performance of known works. We work with established artists but also invest in the development of young talent. The acclaim of our labels with the public and the press is based on our relentless commitment to quality. Outhere produces more than 100 CDs per year, distributed in over 40 countries. Outhere is located in Brussels and Paris.
